Experience

FOUNDER – May 2021 - Present
GEEKE (<https://geeke.app>)

I work part time on my own hobby-based social platform for reading/writing books and connecting with people. My work there includes -

- Building and maintaining a functional and intuitive UI and frontend.
- Handling the entire backend operations/algorithms & databases.
- Communication and caching of data between the frontend and backend.
- Designing basic graphics and videos for promotions.
- Writing content for support articles and blogs.

Other Projects

BROWSPIRE (<https://browspire.geeke.app>)

- Developed a cross-browser extension that personalizes the New Tab page with a modern and cozy look.
- Includes multiple widgets, Spotify player, TODO list, daily quotes, weather data and custom wallpapers.

ZIA (<https://zia.geeke.app>)

- Manages a Discord chatbot which consists of multiple personalities & fun commands.
- Also contains premium personalities based on famous characters
- Currently serving 3.6K+ servers and 400K users.
